

# Letter to President Bush

President George W. Bush  
The White House  
Washington, DC 20500

Dear Mr. President:

I am writing to express my strong opposition to your efforts to create the Security and Prosperity Partnership (SPP). I believe it will lead to the destruction of the United States of America as a free and independent state. The United States is unique to any other nation in the world because of our justice system, our support for individual liberty and our protection of private property rights. And I want to keep it that way.

The task force which is now creating the SPP is working to establish a North American Court, a North American military defense command and a North American executive commission. These can only bring about a North American government or North American Union, like the European Union. Worse, all of this effort is taking place in secret, with no Congressional oversight or debate.

Mr. President, it is your oath to defend and protect the United States of America. If it is your agenda to create a North American Union that will supersede the sovereignty of the United States, then you have an obligation to tell the American people. We have a right to know.
