

Petition to the United States Senate

To: Senate Majority Leader Harry Reid

It is urgent that you use the power of your office as Senate Majority Leader to demand that the Bush Administration publicly disclose all its efforts to establish the Security and Prosperity Partnership (SPP) which is a trilateral agreement with Mexico and Canada.

Reports clearly indicate that the goal of the SPP is the creation of a North American Union, much on the same lines as the European Union. The result will be the establishment of a North American government that supersedes the sovereignty of the United States. This effort has had no Congressional oversight or debate and the SPP task force is operating in complete secrecy.

Therefore, the undersigned American citizen, demand that you take immediate action to block any effort to create a North American Union.

Signed _____ **State** _____ **Date** _____
